**New Super-strength Chain from Sundance-RK:**  
**GL530UW-RS**

Lead Copy: *This chain is a match for any bike,*  
*From Mega-power monster machines*  
*to high-performance Harleys*

Body Copy: **High-performance Motorcycle Chain**  
**GL530UW-RS**

Last year, motorcycle drive chain went through a major transformation. But for high-performance Harley specialist, Sundance and veteran top chain maker RK Excel, it was not enough. We wanted to push evolution further in terms of metallurgy, surface processing, and O-ring material. Overcoming all obstacles in our path, we created the ultimate motorcycle drive chain.

Although the chain is size 530, it weighs no more than 520 while maintaining perfect strength. Balancing these opposing forces, Sundance-RK GL530UW-RS was born.

If you have struggled with chain life problems, on big torque Harleys, liter-class super sports, or off-road customs with wide tires, Sundance-RK GL530UW-RS is the chain you have been waiting for.
